

Skillcast Remote Services

Compliance made simple

Skillcast Remote Services (SRS) enables companies to keep their existing LMS and still benefit from Skillcast's rich compliance e-learning content, advanced analytics, AI digital assistant, and more.

Is it right for you?

SRS is ideal for companies that want to enhance their existing LMS with Skillcast's compliance courses and advanced features.

How does it work?

SRS uses the industry-standard 'Remote SCORM' framework, used by SCORM Cloud, LinkedIn Learning, OpenSesame and other leading institutions, to create a seamless link between your LMS and the courses hosted on Skillcast. It keeps user management, assignments and completion records on your LMS while unlocking powerful additional features via the Skillcast platform. You get the best of both systems.

Why choose SRS?

Enrich your e-learning portal with Skillcast Content

Libraries of readymade compliance courses available on subscription:

- 100+ in-depth courses in Essentials
- 200+ microlearning modules Compliance Bites for just-in-time learning
- Sector-specific libraries for Financial Services, Charities, and others

Content management system (CMS)*: Customise your courses on Skillcast- changes appear instantly on your LMS with dynamic synchronisation without the need to re-upload SCORM files

Host bespoke courses created by Skillcast

* Only available with Skillcast OTS or Skillcast-built bespoke courses

Compliance made simple

Enhance your LMS with Skillcast features

- **Advanced analytics***: Go beyond completion rates with detailed reports that show learner performance against course objectives, test attempts, and engagement trends - giving you deeper insight into training impact.
- **Confidence scores***: Understand not just what your employees know - but how confident they are
- **Multi-LMS delivery**: Use multiple LMSs? Deliver the same course across multiple LMS platforms, with consolidated reporting in a single dashboard
- **Aida* – AI digital assistant**: Let your employees ask compliance questions during training to deepen their knowledge and confidence in the rules and procedures (available with Regular and Max plans)
- **User ratings & feedback***: Gather and analyse learner feedback to improve training quality (Regular and Max Plans)
- **Surveys***: Add anonymous surveys or survey-style questions within the training (Max plan)
